

# Safety Data Sheet according to Regulation (EC) No 1907/2006

Page 1 of 13

SDS No.: 367607

V007.1 Revision: 06.02.2018

printing date: 26.03.2018

Replaces version from: 03.11.2017

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

## 1.1. Product identifier

LOCTITE SI 5980 known as Loctite 5980 200ml En/Fr/NI/De

LOCTITE SI 5980 known as Loctite 5980 200ml En/Fr/Nl/De

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: Silicone sealant

#### 1.3. Details of the supplier of the safety data sheet

Henkel Ltd Wood Lane End

HP2 4RQ Hemel Hempstead

Great Britain

Phone: +44 1442 278000 Fax-no.: +44 1442 278071

ua-productsafety.uk@henkel.com

## 1.4. Emergency telephone number

24 Hours Emergency Tel: +44 (0)1442 278497

## **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

## $\textbf{Classification} \ (\textbf{CLP}) \textbf{:}$

Flammable aerosols Category 3

H229 Pressurised container: May burst if heated.

#### 2.2. Label elements

#### Label elements (CLP):

Signal word: Warning

**Hazard statement:** H229 Pressurised container: May burst if heated.

**Precautionary statement:** P251 Do not pierce or burn, even after use.

P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.

No smoking.

## 2.3. Other hazards

None if used properly.

Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very Bioaccumulative (vPvB) criteria.

## **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

Declaration of the ingredients according to CLP (EC) No 1272/2008:

| Hazardous components  | EC Number        | content | Classification           |
|-----------------------|------------------|---------|--------------------------|
| CAS-No.               | REACH-Reg No.    |         |                          |
| Hexamethyldisilizane  | 213-668-5        | 1-< 3 % | Flam. Liq. 2             |
| 999-97-3              | 01-2119438176-38 |         | H225                     |
|                       |                  |         | Acute Tox. 4; Oral       |
|                       |                  |         | H302                     |
|                       |                  |         | Acute Tox. 3; Dermal     |
|                       |                  |         | H311                     |
|                       |                  |         | Acute Tox. 4; Inhalation |
|                       |                  |         | H332                     |
|                       |                  |         | Aquatic Chronic 3        |
|                       |                  |         | H412                     |
| Trimethoxyvinylsilane | 220-449-8        | 1-< 5 % | Flam. Liq. 3             |
| 2768-02-7             | 01-2119513215-52 |         | H226                     |
|                       |                  |         | Acute Tox. 4; Inhalation |
|                       |                  |         | H332                     |
|                       |                  |         | STOT RE 2; Inhalation    |
|                       |                  |         | H373                     |

For full text of the H - statements and other abbreviations see section 16 "Other information". Substances without classification may have community workplace exposure limits available.

## **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

Inhalation:

Move to fresh air. If symptoms persist, seek medical advice.

Skin contact:

Rinse with running water and soap.

Obtain medical attention if irritation persists.

Eye contact:

Rinse immediately with plenty of running water (for 10 minutes), seek medical attention from a specialist.

Ingestion:

Rinse out mouth, drink 1-2 glasses of water, do not induce vomiting.

Seek medical advice.

#### 4.2. Most important symptoms and effects, both acute and delayed

Prolonged or repeated contact may cause skin irritation.

Prolonged or repeated contact may cause eye irritation.

## 4.3. Indication of any immediate medical attention and special treatment needed

See section: Description of first aid measures

## **SECTION 5: Firefighting measures**

## 5.1. Extinguishing media

## Suitable extinguishing media:

Carbon dioxide, foam, powder

#### Extinguishing media which must not be used for safety reasons:

None known

## 5.2. Special hazards arising from the substance or mixture

In the event of a fire, carbon monoxide (CO), carbon dioxide (CO2) and nitrogen oxides (NOx) can be released.

#### **5.3.** Advice for firefighters

Wear self-contained breathing apparatus and full protective clothing, such as turn-out gear.

#### **Additional information:**

In case of fire, keep containers cool with water spray.

## **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes.

Wear protective equipment.

Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not empty into drains / surface water / ground water.

#### 6.3. Methods and material for containment and cleaning up

For small spills wipe up with paper towel and place in container for disposal.

For large spills absorb onto inert absorbent material and place in sealed container for disposal.

#### 6.4. Reference to other sections

See advice in section 8

## **SECTION 7: Handling and storage**

## 7.1. Precautions for safe handling

Use only in well-ventilated areas.

Avoid skin and eye contact.

See advice in section 8

#### Hygiene measures:

Good industrial hygiene practices should be observed.

Wash hands before work breaks and after finishing work.

Do not eat, drink or smoke while working.

## 7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container.

Refer to Technical Data Sheet

# 7.3. Specific end use(s)

Silicone sealant

# SECTION 8: Exposure controls/personal protection

## 8.1. Control parameters

## **Occupational Exposure Limits**

Valid for

Great Britain

| Ingredient [Regulated substance]   | ppm | mg/m <sup>3</sup> | Value type                   | Short term exposure limit category / Remarks | Regulatory list |
|--|-----|-------------------|------------------------------|--|-----------------|

## **Biological Exposure Indices:**

None

## 8.2. Exposure controls:

Engineering controls: Ensure good ventilation/extraction.

www.techsil.co.uk

Respiratory protection:

Use only in well-ventilated areas.

Ensure adequate ventilation.

An approved mask or respirator fitted with an organic vapour cartridge should be worn if the product is used in a poorly

ventilated area

Filter type: A (EN 14387)

#### Hand protection:

Chemical-resistant protective gloves (EN 374).

Suitable materials for short-term contact or splashes (recommended: at least protection index 2, corresponding to > 30 minutes permeation time as per EN 374):

nitrile rubber (NBR; >= 0.4 mm thickness)

Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374):

nitrile rubber (NBR; >= 0.4 mm thickness)

This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced.

#### Eye protection:

Safety glasses with sideshields or chemical safety goggles should be worn if there is a risk of splashing. Protective eye equipment should conform to EN166.

Skin protection:

Wear suitable protective clothing.

Protective clothing should conform to EN 14605 for liquid splashes or to EN 13982 for dusts.

Advices to personal protection equipment:

The information provided on personal protective equipment is for guidance purposes only. A full risk assessment should be conducted prior to using this product to determine the appropriate personal protective equipment to suit local conditions. Personal protective equipment should conform to the relevant EN standard.

## **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

Appearance paste

black
Odor alcohol-like
Appearance aerosol

Odour threshold No data available / Not applicable

pH Not determined

Melting point No data available / Not applicable Solidification temperature No data available / Not applicable

Initial boiling point Not determined Flash point > 100,00 °C (> 212 °F)

Evaporation rate No data available / Not applicable Flammability No data available / Not applicable Explosive limits No data available / Not applicable Vapour pressure No data available / Not applicable Relative vapour density: No data available / Not applicable

Density Not determined

Bulk density

No data available / Not applicable
Solubility

No data available / Not applicable
No data available / Not applicable
No data available / Not applicable
Partition coefficient: n-octanol/water

Auto-ignition temperature

Decomposition temperature

No data available / Not applicable
No data available / Not applicable
Viscosity

No data available / Not applicable

Viscosity (kinematic) No data available / Not applicable

Explosive properties Oxidising properties No data available / Not applicable No data available / Not applicable

#### 9.2. Other information

No data available / Not applicable

## **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

None if used properly.

#### 10.2. Chemical stability

Stable under recommended storage conditions.

#### 10.3. Possibility of hazardous reactions

See section reactivity

#### 10.4. Conditions to avoid

Stable under normal conditions of storage and use.

## 10.5. Incompatible materials

None if used properly.

## 10.6. Hazardous decomposition products

carbon oxides.

## **SECTION 11: Toxicological information**

#### General toxicological information:

Prolonged or repeated contact may cause skin irritation.

Prolonged or repeated contact may cause eye irritation.

Inhalation of vapors in high concentration may cause irritation of respiratory system

#### 11.1. Information on toxicological effects

#### Acute oral toxicity:

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances             | Value | Value       | Species | Method                                   |
|----------------------------------|-------|-------------|---------|--|
| CAS-No.                          | type  |             |         |  |
| Hexamethyldisilizane<br>999-97-3 | LD50  | 851 mg/kg   | rat     | OECD Guideline 401 (Acute Oral Toxicity) |
| Trimethoxyvinylsilane 2768-02-7  | LD50  | 7.120 mg/kg | rat     | OECD Guideline 401 (Acute Oral Toxicity) |

#### Acute dermal toxicity:

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances CAS-No.     | Value<br>type | Value       | Species | Method                                     |
|----------------------------------|---------------|-------------|---------|--|
| Hexamethyldisilizane<br>999-97-3 | LD50          | 547 mg/kg   | rat     | OECD Guideline 402 (Acute Dermal Toxicity) |
| Trimethoxyvinylsilane 2768-02-7  | LD50          | 3.540 mg/kg | rabbit  | not specified                              |

## Acute inhalative toxicity:

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances  | Value    | Value     | Test atmosphere | Exposure | Species | Method                    |
|-----------------------|----------|-----------|-----------------|----------|---------|---------------------------|
| CAS-No.               | type     |           |                 | time     |         |                           |
| Hexamethyldisilizane  | Acute    | 10,1 mg/l | vapour          |          |         | Expert judgement          |
| 999-97-3              | toxicity |           |                 |          |         |                           |

#### Skin corrosion/irritation:

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances CAS-No.    | Result         | Exposure time | Species | Method           |
|---------------------------------|----------------|---------------|---------|------------------|
| Trimethoxyvinylsilane 2768-02-7 | not irritating |               | rabbit  | other guideline: |

#### Serious eye damage/irritation:

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances CAS-No. | Result         | Exposure time | Species | Method  |
|------------------------------|----------------|---------------|---------|---|
| Trimethoxyvinylsilane        | not irritating |               | rabbit  | OECD Guideline 405 (Acute Eye Irritation / Corrosion) |
| 2768-02-7                    |                |               |         |   |

## Respiratory or skin sensitization:

The mixture is classified based on threshold limits referring to the classified substances present in the mixture.

| Hazardous substances CAS-No. | Result          | Test type               | Species    | Method                                  |
|------------------------------|-----------------|-------------------------|------------|---|
| Trimethoxyvinylsilane        | not sensitising | Guinea pig maximisation | guinea pig | OECD Guideline 406 (Skin Sensitisation) |
| 2768-02-7                    |                 | test                    |            |   |

## Germ cell mutagenicity:

The mixture is classified based on threshold limits referring to the classified substances present in the mixture.

| Hazardous substances CAS-No.     | Result   | Type of study /<br>Route of<br>administration          | Metabolic<br>activation /<br>Exposure time | Species | Method   |
|----------------------------------|----------|--|--|---------|--|
| Hexamethyldisilizane<br>999-97-3 | negative | bacterial reverse<br>mutation assay (e.g<br>Ames test) | with and without                           |         | OECD Guideline 471<br>(Bacterial Reverse Mutation<br>Assay)              |
| Hexamethyldisilizane<br>999-97-3 | negative | mammalian cell<br>gene mutation assay                  | with and without                           |         | OECD Guideline 476 (In vitro<br>Mammalian Cell Gene<br>Mutation Test)    |
| Trimethoxyvinylsilane 2768-02-7  | negative | bacterial reverse<br>mutation assay (e.g<br>Ames test) | with and without                           |         | OECD Guideline 471<br>(Bacterial Reverse Mutation<br>Assay)              |
| Trimethoxyvinylsilane 2768-02-7  | positive | in vitro mammalian<br>chromosome<br>aberration test    | with and without                           |         | OECD Guideline 473 (In vitro<br>Mammalian Chromosome<br>Aberration Test) |
| Trimethoxyvinylsilane 2768-02-7  | negative | mammalian cell<br>gene mutation assay                  | with and without                           |         | OECD Guideline 476 (In vitro<br>Mammalian Cell Gene<br>Mutation Test)    |
| Trimethoxyvinylsilane 2768-02-7  | negative | intraperitoneal  |  | mouse   | other guideline:   |

## Carcinogenicity

No data available.

## Reproductive toxicity:

The mixture is classified based on threshold limits referring to the classified substances present in the mixture.

| Hazardous substances CAS-No.       | Result / Value       | Test type                   | Route of application | Species | Method  |
|------------------------------------|----------------------|-----------------------------|----------------------|---------|---|
| Trimethoxyvinylsilane<br>2768-02-7 | NOAEL P 250 mg/kg    | one-<br>generation<br>study | oral: gavage         | rat     | OECD Combined Repeated<br>Dose and Reproductive /<br>Developmental Toxicity<br>Screening Test (Precursor<br>Protocol of GL 422) |
| Trimethoxyvinylsilane<br>2768-02-7 | NOAEL P 1.000 mg/kg  | one-<br>generation<br>study | oral: gavage         | rat     | OECD Combined Repeated Dose and Reproductive / Developmental Toxicity Screening Test (Precursor Protocol of GL 422)             |
| Trimethoxyvinylsilane<br>2768-02-7 | NOAEL F1 1.000 mg/kg | one-<br>generation<br>study | oral: gavage         | rat     | OECD Combined Repeated Dose and Reproductive / Developmental Toxicity Screening Test (Precursor Protocol of GL 422)             |

#### STOT-single exposure:

No data available.

## STOT-repeated exposure::

The mixture is classified based on threshold limits referring to the classified substances present in the mixture.

| Hazardous substances  | Result / Value     | Route of     | Exposure time / | Species | Method                   |
|-----------------------|--------------------|--------------|-----------------|---------|--------------------------|
| CAS-No.               |                    | application  | Frequency of    |         |                          |
|                       |                    |              | treatment       |         |                          |
| Trimethoxyvinylsilane | NOAEL < 62,5 mg/kg | oral: gavage | daily           | rat     | OECD Guideline 422       |
| 2768-02-7             |                    |              |                 |         | (Combined Repeated       |
|                       |                    |              |                 |         | Dose Toxicity Study with |
|                       |                    |              |                 |         | the Reproduction /       |
|                       |                    |              |                 |         | Developmental Toxicity   |
|                       |                    |              |                 |         | Screening Test)          |

## **Aspiration hazard:**

No data available.

# **SECTION 12: Ecological information**

## General ecological information:

Do not empty into drains / surface water / ground water.

#### 12.1. Toxicity

## Toxicity (Fish):

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances  | Value | Value    | Exposure time | Species                      | Method                    |
|-----------------------|-------|----------|---------------|------------------------------|---------------------------|
| CAS-No.               | type  |          |               |                              |                           |
| Hexamethyldisilizane  | LC50  | 88 mg/l  | 96 h          | Brachydanio rerio (new name: | OECD Guideline 203 (Fish, |
| 999-97-3              |       |          |               | Danio rerio)                 | Acute Toxicity Test)      |
| Trimethoxyvinylsilane | LC50  | 191 mg/l | 96 h          | Oncorhynchus mykiss          | OECD Guideline 203 (Fish, |
| 2768-02-7             |       | -        |               | ,                            | Acute Toxicity Test)      |

## Toxicity (Daphnia):

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances  | Value | Value      | Exposure time | Species       | Method               |
|-----------------------|-------|------------|---------------|---------------|----------------------|
| CAS-No.               | type  |            |               |               |                      |
| Hexamethyldisilizane  | EC50  | 80 mg/l    | 48 h          | Daphnia magna | OECD Guideline 202   |
| 999-97-3              |       |            |               |               | (Daphnia sp. Acute   |
|                       |       |            |               |               | Immobilisation Test) |
| Trimethoxyvinylsilane | EC50  | > 100 mg/l | 48 h          | Daphnia magna | OECD Guideline 202   |
| 2768-02-7             |       |            |               |               | (Daphnia sp. Acute   |
|                       |       |            |               |               | Immobilisation Test) |

#### Chronic toxicity to aquatic invertebrates

No data available.

#### Toxicity (Algae):

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances<br>CAS-No.  | Value<br>type | Value      | Exposure time | Species   | Method   |
|----------------------------------|---------------|------------|---------------|---|--|
| Hexamethyldisilizane<br>999-97-3 | NOEC          | 2,7 mg/l   | 72 h          | Scenedesmus subspicatus (new name: Desmodesmus subspicatus) | OECD Guideline 201 (Alga,<br>Growth Inhibition Test) |
| Hexamethyldisilizane<br>999-97-3 | EC50          | 19 mg/l    | 72 h          | Scenedesmus subspicatus (new name: Desmodesmus subspicatus) | OECD Guideline 201 (Alga, Growth Inhibition Test)    |
| Trimethoxyvinylsilane 2768-02-7  | EC50          | > 100 mg/l | 72 h          |   | OECD Guideline 201 (Alga, Growth Inhibition Test)    |

## Toxicity to microorganisms

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances  | Value | Value        | Exposure time | Species | Method                       |
|-----------------------|-------|--------------|---------------|---------|------------------------------|
| CAS-No.               | type  |              |               |         |                              |
| Trimethoxyvinylsilane | EC 50 | > 2.500 mg/l | 3 h           |         | OECD Guideline 209           |
| 2768-02-7             |       |              |               |         | (Activated Sludge,           |
|                       |       |              |               |         | Respiration Inhibition Test) |

## 12.2. Persistence and degradability

The product is not biodegradable.

| Hazardous substances | Result | Test type | Degradability | Exposure | Method                          |
|----------------------|--------|-----------|---------------|----------|---------------------------------|
| CAS-No.              |        |           |               | time     |                                 |
| Hexamethyldisilizane |        | no data   | 15,3 %        | 28 d     | OECD Guideline 301 D (Ready     |
| 999-97-3             |        |           |               |          | Biodegradability: Closed Bottle |
|                      |        |           |               |          | Test)                           |

#### 12.3. Bioaccumulative potential

No data available.

No substance data available.

#### 12.4. Mobility in soil

Cured adhesives are immobile.

No substance data available.

#### 12.5. Results of PBT and vPvB assessment

| Hazardous substances  | PBT / vPvB   |
|-----------------------|--|
| CAS-No.               |  |
| Hexamethyldisilizane  | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 999-97-3              | Bioaccumulative (vPvB) criteria.   |
| Trimethoxyvinylsilane | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 2768-02-7             | Bioaccumulative (vPvB) criteria.   |

#### 12.6. Other adverse effects

No data available.

# **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

Product disposal:

Dispose of in accordance with local and national regulations.

Collection and delivery to recycling enterprise or other registered elimination institution.

#### Disposal of uncleaned packages:

After use, tubes, cartons and bottles containing residual product should be disposed of as chemically contaminated waste in an authorised legal land fill site or incinerated.

#### Waste code

The valid EWC waste code numbers are source-related. The manufacturer is therefore unable to specify EWC waste codes for the articles or products used in the various sectors. The EWC codes listed are intended as a recommendation for users. We will be happy to advise you.

08 04 09 waste adhesives and sealants containing organic solvents and other dangerous substances

# **SECTION 14: Transport information**

## 14.1. UN number

| ADR  | 1950 |
|------|------|
| RID  | 1950 |
| ADN  | 1950 |
| IMDG | 1950 |
| IATA | 1950 |

# 14.2. UN proper shipping name

| ADR  | AEROSOLS |
|------|----------|
| RID  | AEROSOLS |
| ADN  | AEROSOLS |
| IMDG | AEROSOLS |

IATA Aerosols, non-flammable

#### 14.3. Transport hazard class(es)

| ADR  | 2.2 |
|------|-----|
| RID  | 2.2 |
| ADN  | 2.2 |
| IMDG | 2.2 |
| IATA | 2.2 |

## 14.4. Packing group

ADR RID ADN IMDG IATA

## 14.5. Environmental hazards

| ADR  | not applicable |
|------|----------------|
| RID  | not applicable |
| ADN  | not applicable |
| IMDG | not applicable |
| IATA | not applicable |

#### 14.6. Special precautions for user

| ADR  | not applicable  |
|------|-----------------|
|      | Tunnelcode: (E) |
| RID  | not applicable  |
| ADN  | not applicable  |
| IMDG | not applicable  |
| IATA | not applicable  |

## 14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

not applicable

# **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

VOC content (2010/75/EC)

< 10 %

#### 15.2. Chemical safety assessment

A chemical safety assessment has not been carried out.

## **SECTION 16: Other information**

The labelling of the product is indicated in Section 2. The full text

of all abbreviations indicated by codes in this safety data sheet are as follows:

H225 Highly flammable liquid and vapor.

H226 Flammable liquid and vapor.

H302 Harmful if swallowed.

H311 Toxic in contact with skin.

H332 Harmful if inhaled.

H373 May cause damage to organs through prolonged or repeated exposure.

H412 Harmful to aquatic life with long lasting effects.

#### **Further information:**

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our products from the point of view of safety requirements and is not intended to guarantee any particular properties.

Relevant changes in this safety data sheet are indicated by vertical lines at the left margin in the body of this document. Corresponding text is displayed in a different color on shadowed fields.
