

## **QUALITY POLICY**

Techsil Limited supplies a diverse range of industries, including automotive, electronics, transportation, aerospace, defence and medical, throughout the U.K, Europe and beyond. Through partnerships with our suppliers, we can offer a complete range of solutions to include well-established product ranges and new, innovative and technologically advanced materials.

Working with our manufacturing partners, Techsil Limited delivers technical and application knowledge. We aim to ensure that our customers' business is enhanced by the continuous introduction of new products, processes and innovation that deliver real customer benefits and value.

To achieve this objective, Techsil Limited operates a Quality Management System that is described in our Quality Manual and associated documentation that provides a framework for setting objectives and other applicable requirements, while supporting the strategic direction of the company.

It is the policy of Techsil Limited to ensure the continual improvement of the effectiveness of our Quality Management System and our overall performance to satisfy the expectations and requirements of our customers and stakeholders.

Adherence to this policy involves all the Company's activities and services and their effects. This policy is understood, implemented and maintained at all levels within the organisation.

Our Quality Policy is publicly available to relevant interested parties and reviewed for continuing suitability to the needs of the business and the requirements of ISO9001:2015.

The Managing Director has the ultimate responsibility for the effective operation of our Quality Management System and ensure that the Quality Policy is regularly reviewed for continuing suitability.
